

MCKENZIE SERIES - Casement, Awning & Picture Windows

Our McKenzie Series offers a wide variety of windows as single or multi-lite configurations are possible. Windows within this series do not have to be mullied together because of our continuous frame design allowing for configurations that bring vast spans of natural light and views to your projects.

The McKenzie Series has a Fusion-welded frame and sash assuring strength, durability, and years of trouble-free service in the home.

The vinyl is available in white, sandstone, and clay on which a number of solid color or wood-grain foils can be laminated.

Features:

- Frame Depth: 3-1/2"
- Up to 1-3/8" glazing capability for increased energy efficiency and acoustical performance.
- Nail Fin set back stucco key: 1"
- Nail Fin set back accessory groove: 1-3/8"
- Continuous frame building multi-lite configurations within one frame provides greater design flexibility and freedom.
- Reinforced frame & sash this allows for our product line to be designed into plans for taller buildings and commercial applications.
- Ease of use hardware, we offer the best hardware on the market for commercial application openers for ventilation and cleaning.
