

Clackamas In-Swing & Out-Swing Doors

The Clackamas series swing door offers builders and architects an attractive solution for both residential and commercial markets. Incorporating the latest developments and performance enhancements of the European hardware features including the multi-point locking system resulting in an incredibly secure and structurally sound door. And using compression seal design enhances protection against water intrusion, air infiltration and allows ease of glass replacement

This series is available in white, sandstone, and clay on which can be laminated with a high-performance film for color fastness and durability.

Features:

- Frame Depth: 3-1/4"
- Up to 1-5/8" glazing capability for increased energy efficiency and acoustical performance.
- Reinforced frame & sash allows for our product line to be designed into plans for taller buildings and commercial applications.
- Ease of use Hardware, multiple options for ventilation and cleaning.

At a glance performance:

- Structural: up to LC PG50
- Acoustical: Currently no STC testing
- Thermal: down to 0.17*

*based on simulation
